DEDICATION

Among the faculty and administration of Weston High School, one person in particular guided our class. As a teacher he has been straightforward and energetic, a concerned, responsive friend with whom we could talk easily, both in groups and individually. As our class adviser his ideas, support, and participation have been steadfast and valuable.

In Appreciation

We, the class of 1972, gratefully dedicate our yearbook to Mr. Donald Burke, whose interest in our class was enthusiastic, whose advice was wise, whose involvement was dedicated.

To you, Mr. Burke, in memory of a moment we have shared . . .

RECOGNITION

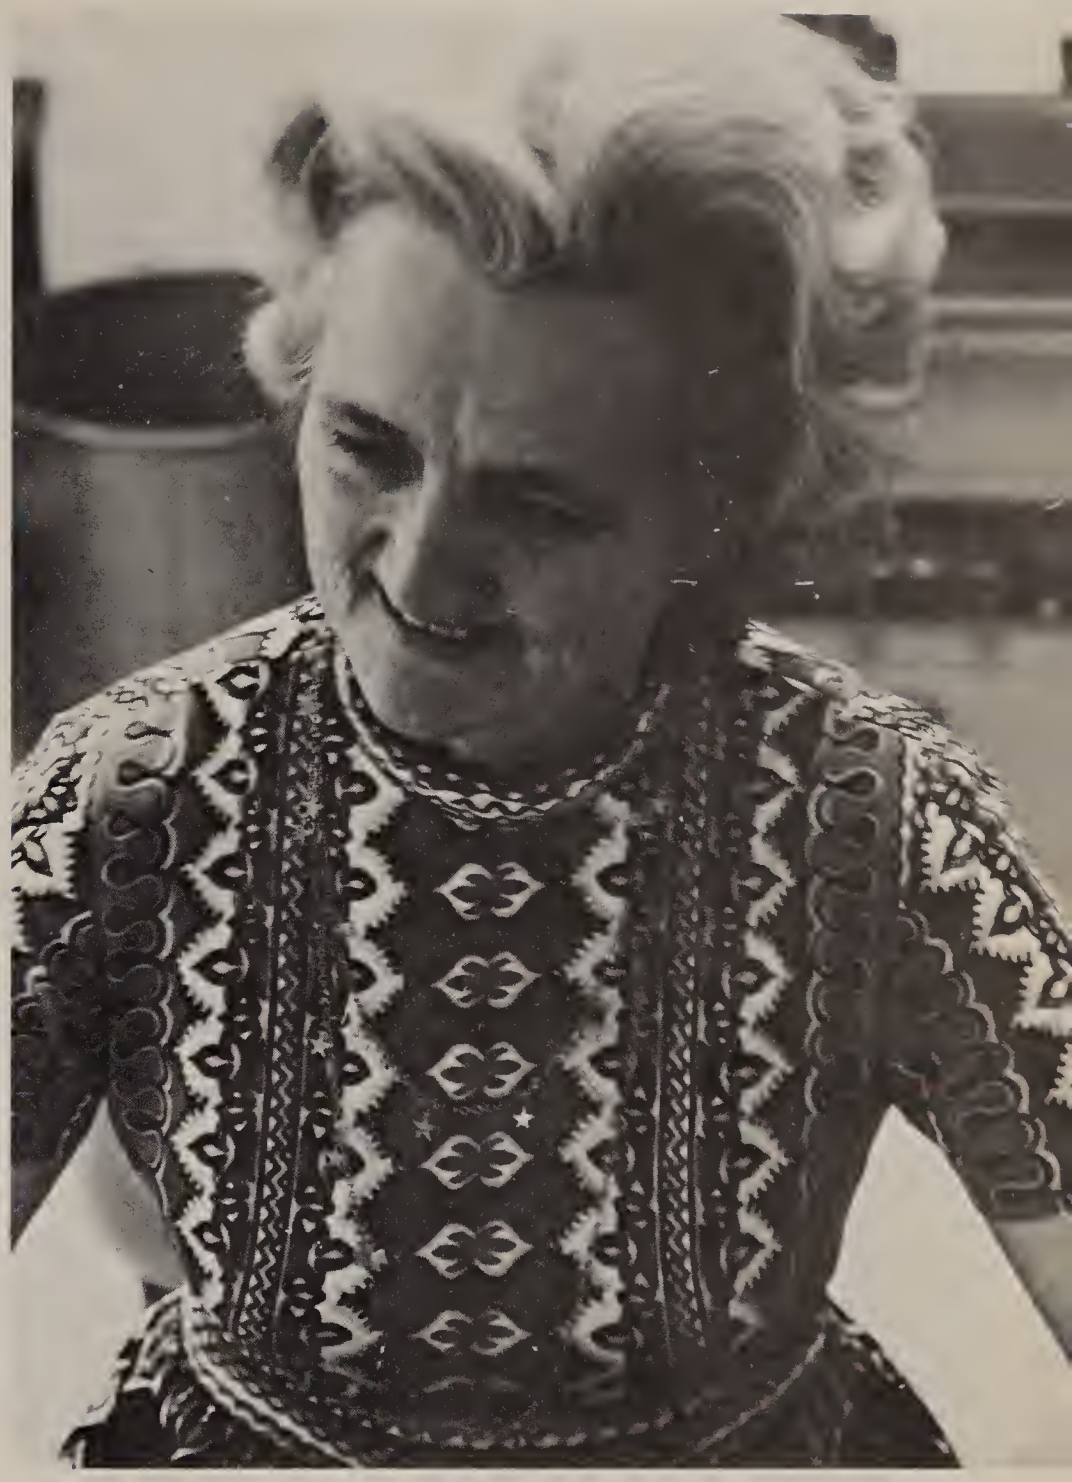
No task could ever be completed without taking into consideration the unsung work of many good people.

It is here that we would like to say a special "Thank you", to you, Mrs. Moriarity, for being so kind, generous and understanding at times when we must have made your work so trying.

Many of our endeavors through these years could not have been completed without your untiring help.

We do not want to forget all you have done for us, with your patient and friendly personality.

Thank you, Mrs. Moriarity.



Even though Mr. MacLeod is retired from Weston High School, his smiling face is not forgotten.

As every class knows, there are many projects that develop through four years of High School, and without the special help of Mr. Mac we might not have succeeded with them.

So it is with a special "Thank you" that we would like to give you this recognition, Mr. Mac, we know that we are unlikely to forget you. We hope that you will remember us.

Thank you, Mr. Mac.

VARSITY BASKETBALL

FIRST ROW: Brad Kulow, Doug Shaw, Danny Johnson, Peter Anton, Dave Teittenin, John Cremmen. SECOND ROW: Mr. Manzo, John Littlefield, Bill McCarthy, Peter Acconcia, Tom Phillips, Jim Wilson, Stefan Karas, Peter McKearney.

The 1971-1972 Weston Varsity Basketball squad was turned back in its bid for a perfect season by a hard to avoid victory over its closest rival, Lynnfield. With only two returning lettermen (who wound up as team captains), the Wildcat hoopmen had trouble getting off the ground and suffered thirteen straight losses before romping over Lynnfield, who in turn won over Bedford, thus clinching the cellar spot for Weston.

However, the string of defeats did little to dishearten the team, which went into each contest with surprising determination. This is in large part a tribute to Coach Alex Manzo who, in his last season with the varsity, remained equally dedicated to the team and undiscouraged: an inspiration to the players.

The Winter Track Team now has another "building season" under its belt. We finished with a record of two wins and four losses, and the main reason for not having a winning season was lack of depth. We got our share of first places, averaging four or five each meet out of a possible ten, but we just didn't take enough seconds and thirds. We also had many fine quality athletes as the regular season and the All-League Meet showed. In the All-League Meet, Dave O'Connor was first in the 600, Jon Billings was second in the 40, Chris Queen was second in the shotput, Doug Doane was third in the mile and Tim Scott was fourth in the High Jump.

The outlook for next year is bright because almost all of our top scorers will be returning. The "building seasons" should be over.

A 2-11-1 record, but a definite D.C.L. contender ... Ronnie's Rockets ... "off to the states" ... Butler's in the box again ... the tape deck that wasn't ... "Brodrick, don't bite your tongue!" ... and we almost beat Wayland ... goal-a-minute Matty! ... "What about a fight, Larsen?" ... "You guys can't score if you don't shoot" ... eight loyal cheerleaders plus Elda ... "Who's the guy with the long, blonde curls?" ... Battle of the Bands ... coaches disguised as bus drivers ... a great climax by Dave Starr ... next year's DCL champs.

The future arrives sooner at Raytheon.

When you work at the forefront of technology, you work on "tomorrow" every day.

That's what we do at Raytheon. With amazing results. For example, Radarange® microwave ovens for the home. A miniature furnace the size of a two-pound coffee can. Motionless radars that "see" everywhere at once.

Our facilities stretch around the world. And our activities extend from space exploration to pollution control.

Raytheon. The company that makes things happen.
